Certain of our products are sold through third-party dealers and the failure to maintain relationships with our existing dealers, attract additional dealers or effectively manage our dealers may materially and adversely affect our business.

We face risks associated with our global scale of operations, and if we are unable to effectively manage these risks, they could impair our ability to maintain our business abroad.

Our success depends in part on our ability to successfully identify and make strategic acquisitions, integrate them into our existing business operations and to establish and maintain strategic relationships. The failure to do so could have a material and adverse effect on our current and future business operations.

Our business and long-term competitiveness rely on ongoing investment in research and development, access to advanced technologies and the development of innovation capabilities.

Our success depends in part on our ability to enhance our manufacturing capabilities, which is subject to risks and uncertainties.

Our business depends substantially on our senior management's continuing services and our ability to maintain a skilled labor force, and our business may be severely disrupted if we were to lose the services of our management or other key personnel.

We require a number of permits, licenses, registrations and certificates in order to carry on our business and the failure to obtain or maintain these permits, licenses, registrations and certificates could materially harm our business and prospects.

We may continue to engage in certain sales of products to third-party dealers for end use by countries, governments, entities, or persons targeted by economic sanctions of the United States government, which may adversely affect our reputation and prevent U.S. persons from purchasing our H Shares, thereby potentially reducing our share price.

Our largest shareholder has substantial influence over our Company and its interests may not be aligned with the interests of our other shareholders.

We enjoy certain government grants and incentives and the expiration of, or changes to, these incentives may materially and adversely affect our business, financial position and results of operations.

We may incur additional costs, experience manufacturing disruptions or fail to satisfy our contractual requirements if we were forced to relocate as a result of any disputes over the title or ownership rights of the properties we own or lease.

We may be involved in legal proceedings and commercial disputes, which could have a material adverse effect on our business, financial condition and results of operations.
